SHERIFFS RETURN WITH DESPERATE PRISONERS

Learning that "Bunch" Mitchell, a negro indicted on two charges of grand larceny, who escaped from the Paris jail about a year ago, had been seen in the vicinity of Clay City, Sheriff M. Peale Collier, Deputy Sheriff James M. Gibson went to Clay City Wednesday morning.

A short distance from the town they came upon Mitchell, who had found employment there, and placed him under arrest. He is regarded as a desperate character and told the officials he would never have been taken alive if he had been armed at the time. Returning through Winchester the officials found Howard Smith, a negro indicted by the recent grand jury on a charge of housebreaking. He was released on bond.

On the return trip between Winchester and Paris, Sheriff Collier's machine collided with a machine which was endeavoring to turn in a farm road. Deputy Sheriff Gibson was thrown across the seat by the collision, breaking his nose. Notwithstanding his injury he held on to his prisoners and brought them safely to the Paris jail. None of the other occupants of the car was injured.

AUTO CATCHES FIRE

The fire department was summoned by telephone Wednesday afternoon, to the vicinity of the First National Bank, where an automobile belonging to W. S. Haggard was on fire. It was thought someone had tossed a cigar butt or a cigarette end on the top of the machine which was in flames when the alarm was sent in. A large portion of the top and back of the machine was burned before the flames were extinguished with chemicals by members of the fire department. Mr. Haggard had left the car parked on the Fourth street side of the First National, and it was the supposition that that someone in the upper stories of the edifice had carelessly thrown the cigar or cigarette out of the window, landing on top of the machine. The car was sent to a local garage for repairs.

SCHOOL NOTES

The commencement exercises of the University of Kentucky will be held Wednesday morning, on the lawn at Patterson Hall. The address to the 1922 Class will be delivered by Dr. Edward E. Slosson, of Washington, D. C., who will take as his subject, "Looking Backward and Living Forward." The address will be followed by the conferring of degrees and the announcement of honors by President Frank L. McVey. Among the members of the graduating class are the following from Bourbon county: College of Arts and Science—Edna Dee Snapp, Evelyn Baerlo Friedman, Robert Edward Lavin; College of Engineering—Lawrence A. Soper, Jr., Chester Clay Young; College of Agriculture—Fannie Geneva Heller.

Tuesday night the premier event in a week full of pleasurable happenings for the school pupils was the concert given by the Girls' Glee Club, of the P. H. S., which was given in the P. H. S. auditorium. The following program was rendered, each participant acquitting herself with credit: "Blue Danube," Glee Club; Impromptu, Rachel McClintock; The Summer Wind, Marie of the South, O. Sole Mio, Marie Collins and Chorus; Aloha Oe, Glee Club; Only a Dream of Summer, Senior Glee Club; Florain Long, Ellen Scott; Caballero, The Joys of Spring, Barcarole, Glee Club.

Wednesday evening at eight o'clock the Juniors entertained in honor of the members of the Senior Class of 1922, forty-six in number.

Bringing to a close almost a week of social happenings full of pleasure, and with some share of sorrow over the parting of ways for many of the pupils, and annual commencement exercises of the Paris High School was held at the Christian church at ten o'clock yesterday morning. On this occasion the largest class in the history of the school, forty-six, were graduated and received their diplomas entitling them to the privilege of really "commencing" life, outside of the school room. The large auditorium of the church was filled with a crowd of friends and patrons of the school, and the sight was a most inspiring one. Following the professional, the invocation was delivered by Rev. T. S. Smylie, pastor of the Presbyterian church. Rev. Dr. Benj. J. Bush, of Lexington, delivered the commencement address to the members of the class, after which presentation of the diplomas were made to the class by A. B. Hancock, president of the City Board of Education. After rendition of a number of musical selections Rev. C. H. Greer, of the Methodist church pronounced the benediction, and the "commencement" of 1922 had passed into history.

Last night was the annual reunion and banquet of the P. H. S. alumni, an event that always brings with it a most enjoyable reunion and mingling of the former students of the P. H. S. The banquet was served in the Y. M. C. A. building by the ladies of the Bourbon County Woman's Club.

At the close of the present session of the Paris City School members of the faculty will leave for summer work at the various universities. Prof. F. A. Scott, principal of the High School, will take work on his M. A. degree at Columbia University; Miss Maude Asbury, teacher of home economics, will study at Columbia University; Miss Irene Evans, one of the new teachers for the coming year, will study at the University of Chicago. She is a graduate of the University of Kentucky and taught in the Stanford High School during the past year. Miss Zerelda Noland, teacher of English, Miss Mary Louise Lillard, Miss Louise Harbold and Miss Nell Robbins will go to Columbia University. Every teacher in the Paris City School will be in some summer school this summer, either as student or teacher.

At the class day exercises of Transylvania College, held in Morrison Chapel, Wednesday afternoon the feature was a playlet, "Class Day Exercises in 1940," written by Miss Elizabeth Clark, daughter of Mr. and Mrs. Everett Clark, of Paris. The cast of the play was made up of Transylvania students especially selected for the purpose. The playlet was voted by the students an unqualified success.

Prof. McHenry Rhodes, of the University of Kentucky, delivered the class address Wednesday morning to 104 eighth grade graduates of the Bourbon county schools. The exercises were held in the auditorium of the Paris High School. J. M. McVey presided. The invocation was pronounced by Prof. R. H. Elliott, of North Middletown. Miss Ellen Blanding, of Lexington, supervisor of music, led the singing, accompanied by the Paris orchestra. The diplomas were presented by Prof. McVey.

DEMOCRATS IN CONFERENCE

Wm. D. McIntyre, of Millersburg, Chairman of the Bourbon County Democratic Committee, attended a meeting of representative Democrats, county chairmen and committeemen, held in the Phoenix Hotel, in Lexington, Tuesday afternoon. The meeting was for the purpose of laying the groundwork for campaigns to be waged in every county of the Seventh Congressional District to obtain a full party registration on July 10 and 11.

Nine counties of the District, Fayette, Bourbon, Clark, Woodford, Lee, Oldham, Owen, Henry and Scott, were represented at the luncheon preceding the meeting, which remained in session for several hours. The luncheon began at one o'clock.

A thorough discussion of the registration law passed by the General Assembly requiring a registration of all voters whether they live in the county or cities was participated in by all those attending the conference. Plans were made to wage vigorous campaigns in each county that the full Democratic vote may be brought to the polls.

Congressman J. Campbell Cantrill, of the Seventh District, presided over the meeting and will be chairman of the campaign for the district. The State Central Democratic committee recently ruled that in each district where a Democratic Congressman is in office, he shall be chairman of the campaign committee and direct the work of registration. Mr. Cantrill stated he will remain in Lexington until after the registration and will assist in the campaign in the several counties.

In addition to the Democratic men attending the conference a number of women leaders participated, including Mrs. J. Campbell Cantrill, Mrs. Cecil Cantrill, Mrs. Solomon Van Meter, Mrs. Samuel M. Wilson, all of Lexington, and Mrs. Church Blackburn, of Georgetown; Mrs. Robert Arnold, of Versailles, and Mrs. Robt. Crowe, Oldham county.

AUTO RUNS OVER CHILD

John Seaton Lynn, five-year-old stepson of John Rankin, who conducts a grocery on Eighth street, was run over and badly injured by an automobile in front of his home Tuesday. The car, according to the authorities, was being driven by Mrs. Edith Pennington, and was occupied by Bert King and a daughter of Mrs. Pennington. The child was knocked down near the curbing, and both wheels, it was said, passed over his body.

The child was rushed to the Massie Memorial Hospital, where it was found his arms and legs were badly lacerated, but no bones were broken. Physicians were unable to say whether or not the child had received internal injuries.

HORSES STAGS RUNAWAY

Plunging at breakneck speed down Eighth street horses attached to one of the Paris Ice Co.'s delivery wagons made the hazardous trip as far as the Louisville & Nashville ticket office without mishap.

The horses became frightened at the corner of Eighth and Walker avenue and ran away. Their line of flight led through a street crowded with vehicular traffic, but no mishap occurred, save slight damages to the wagon. The flying team narrowly missed striking automobiles and vehicles in their path, but by sheer good luck they missed them.

OLD TIME "MAMMY" PASSES

"Aunt" Vina Craig, one of the few remaining old colored "Mammies" of the South, who are rapidly passing away, died in Paris, Wednesday afternoon at the age of ninety-two, following a long illness from the infirmities of age.

For twenty years she was a faithful servant in the family of the late Rev. John S. Sweeney, and Mrs. Sweeney, of Paris. Children of the family she practically raised were Dr. John S. Sweeney, of Chicago, surgeon in the Palmer House, who married a sister of Marlyn Miller, the actress; Rev. Wm. S. Sweeney, of Johnson City, Tenn., and Mrs. George S. Hamilton, of Two Rivers, Wis., each of whom sent floral tributes and messages of condolence.

A weight 490 times its own is just an average lift for a crab.

their diplomas at the Western High School Tuesday night. The class address was delivered by Mrs. J. M. Norcum, of Cincinnati. The diplomas were presented by Supt. of Schools J. M. McVey.

CHURCH LEAGUE STANDING

	Won	Lost	Pct
Methodists	4	1	.800
Christians	3	2	.600
Baptist	2	3	.400
Presbyterians	1	4	.200

Paris has signed up a new pitcher, Parsons, of Cincinnati, who arrived yesterday to take part in the game to-morrow, Paris vs. Cynthiana. This is one of the games that was postponed from one of the "rainy days" scheduled at an earlier date.

The Mammoths and the Cynthiana teams will tie up at League Park Sunday afternoon. The contest will be well worth seeing, as both teams are going strong. Rivalry between Paris and Cynthiana in the line of outdoor sports has always been at high heat, and both teams will make an earnest endeavor to fatten their averages and improve their standing in Sunday's contest.

The next game in the Church League will be played this (Friday) afternoon, at 3:30 o'clock, on Hancock Field, between the Methodist and Presbyterian teams. A good game is expected.

NOW FOR VACATION DAYS

With the month of June begins the annual vacation time. During this month the schools close for the annual vacation and sometimes between now and September most people who work, usually have a vacation from their toils. Even to those who can take no regular vacation the long days that come at this time of year, offer an opportunity to get out of doors for a few hours each day.

This vacation season is a time that should not be wasted. Everyone young or old, who possibly can, should spend as much time as possible in the open. Mental and bodily health require it. It is nature's medicine. At this time of year the pack should be turned against the turmoil and complexities of the routine of everyday life. Forget for a time the littleness of daily existence by turning to the great truth—the truth of nature.

THE NEWS feels that every boy owes it to himself to get out into the great out of doors as much as possible this summer. Let the twilight song of the wood thrush take the place of the jazz orchestra, and let the ever-changing scenery of the lake and hill, take the place of the movies. For the works of nature are true and genuine, while those of man are counterfeit and false. Get out into the open country and lead the simple life. It is good for the body and soul.

PARIS ATTORNEY SPECIAL JUDGE OF SCOTT COURT

Hon. Emmett M. Dickson, of Paris, presided as Special Judge in the Scott Circuit Court, at Georgetown, Tuesday, in the absence of Judge Robert L. Stout. The case of J. L. Luke against N. M. Burgess over the settlement of a partnership was dismissed without prejudice on the motion of the plaintiff.

Henry Banks, colored slayer of policeman W. O. Barkley, who was given the death penalty by a Scott jury, will be taken to Georgetown from Lexington, Saturday, to be sentenced by Judge Robert L. Stout. The day of electrocution will be named by the Circuit Judge.

KNIGHTS OF COLUMBUS PLAN NING FOR PICNIC

The picnics given in previous years by the Knights of Columbus, of Paris, having proved to be successes in the way of attendance, enjoyment of those present and financially, it has been decided to make it an annual event in the future. This year, as on last year, the date has been set for the National holiday of July Fourth, and the scene of the festivities will again be the beautiful woodland of Forrest Letton, on the Paris and Lexington pike, about two miles from Paris.

The promoters of this year's affair are trying to eclipse all previous efforts, and are arranging for a number of attractions which have never been seen in Paris before. The event will be ushered in by a street parade in the morning, headed by a brass band, in which various local merchants will enter decorated floats. Prizes will be offered for the most artistic and elaborate entries. The grounds will resemble a mammoth carnival with its numerous amusements, and a program of field events is being arranged, in which not only Paris, but neighboring towns will be invited to participate. A large dancing pavilion will be erected, and an orchestra will furnish music.

The traction company has promised hearty co-operation in providing special cars to be run on a half hour schedule between Paris and the picnic grounds. The committee in charge have succeeded in booking an amusement feature entirely new to Paris and Central Kentucky towns, the nature of which will be kept secret until the big day. It alone will amply repay one for a trip to the grounds. In addition a speaker of nation-wide prominence has promised to deliver an address. It will be the one big day of the year.

RIVER VICTIM NOT KNOWN

According to Associated Press dispatches in the daily papers Wednesday the body of a man was found floating in the Mississippi river at Memphis, Tenn., with his skull crushed. On the body was found a note saying: "Please notify Frank Cox, North Middletown, Ky. He knows that I am in trouble." The note was signed "Frank Wamble." No person by the name of Frank Cox or Frank Wamble is known either in Paris or North Middletown.

SUMMER PLAYGROUNDS TO OPEN MONDAY

The summer playgrounds will open to the public Monday morning, June 12. The following hours will be in force at all playgrounds:

10 to 12 a. m., Kindergarten for smaller children; 2 to 6 p. m., afternoon recreation open to all ages; 7 to 9 p. m., evening community period.

The playgrounds will offer recreation and diversion to all children. The supervision will be competent instructors under the leadership of Miss Grace Cruickshank. Location of playgrounds and their respective leaders will be published later. No child who wants to enjoy summer vacation should miss the opportunity of attending the playground in his section of the city.

Many things are planned which will not be of interest to the children, but will reach the hearts of all ages and make all children again. The last class for Playground Instructors will be held Saturday afternoon at three o'clock. Full attendance is urged.

EDITORIAL FLINGS

The thief who stole Henry Ford's Diver while it was parked downtown in Detroit, probably had it all figured out that Henry could spare one better than anyone else in the country.

There was a young lady named Kent Who always said just what she meant;
Folks say she's sincere,
And she speaks without fear—
So they shunned her by common consent.

And now a scientific feller tells us that the common ordinary housefly carries one hundred and eighty different kinds of bacteria. About all the pest needs is pockets, so that it could lug around with it a pistol and brass knucks.

Neither ex-President Woodrow Wilson nor former Presidential candidates William Jennings Bryan and James M. Cox can make the issue for the Democratic party this fall, as President Harding and his administration have already made 'em.

The Hell family is reported to have broken loose in a Kentucky town. Mama Hell had Papa Hell arrested for threatening to kill her and the three children. If one of the children is a girl she ought to be named Merry Hell.

Some people say Paris is a jay town. Well, a jay town is one where the inhabitants take enough interest in you to care whether you live or die; sympathize with you in your afflictions; rejoice with you in your good fortune; help, also hinder you, and know all about what everything you own costs, or worry themselves sick trying to find out.

There may be more beautiful places in the State than Stoner creek, but it would be hard to convince a lover of nature of that fact. It is border of green, and with a typical Kentucky sky and a warm, smiling sun over all, it's a glimpse of Paradise, especially to the indoor worker who has been bent over a desk for six days of the week.

A writer insists that man could live twice as long as he usually does if he would abandon the notion that seventy or eighty years is the normal limit of life. Among other interesting instances of longevity he refers to a certain district in Chile where in a population of about 40,000 there are more than twenty persons who have reached the remarkable age of one hundred and fifty years.

These are the lazy days—days when the gardener isn't worth a darn and the boss a lot less. They are fishing, baseball, marble playing days, and the time of real sport. They are days when the spring fever hits you in the mid-section, and work looks like suicide or sudden death. And the nights—they are frog-hunting nights, moonlight, moonshiny, loving nights of ten thousand sighs and fuses. They are the nights that bring on June weddings, make restless sleep and run up gasoline bills. Yes, the days are

fine and pretty, likewise the nights, but as business getters, they aren't worth the proverbial tinker's dam.

Last season it was predicted that the men would all be wearing knickerbockers this summer. Then the girls went ahead and beat us to it, and now us men won't dare to wear them.

Adam and Eve were fairly human, and so the chances are they didn't stop to pick up the old newspapers and lunch boxes and remnants of their picnic when they left the Garden of Eden.

A Paris girl says: "One of the best things about attending a radio concert is the fact that you don't have to get a new dress every time you go out to one of the affairs."

An exchange says that "high-knee skirts are on the wane." In view of the fact that lexicographers are agreed that "wane" means to grow less, maybe bathing suits for street wear are to be the style.

The codfish lays a million eggs. While the helpful hen lays one; But the Codfish does not cackle To tell what she has done. And so we scorn the codfish coy. But the codfish does not cackle Which indicates to thoughtful minds It pays to advertise.

"The light of a whole life dies when love is dead," quoted a Kentucky loveress before killing her one-time lover and trying to kill herself. Oh no, it doesn't necessarily follow, as when love dies all you've got to do is to get a divorce and try your luck again.

A Kentucky newspaper wants to know why later writers do not refer to "her" as "the blushing bride," as they did in years ago. Well, that's because modern writers tell the truth, and if they described her as the "painted bride," some feelings would be wounded.

DEMOCRATIC PROSPERITY VS. REPUBLICAN DISASTER

When Woodrow Wilson went into office as President in 1913, the estimated wealth of the United States was \$180,000,000,000; when he retired at the end of eight years it was \$300,000,000,000, a gain of \$120,000,000,000.

The present estimated wealth of the United States is \$225,000,000,000, showing a decrease of \$75,000,000,000 in the fifteen months a Republican administration has been in power.

These figures were recently stated by Senator King (Dem., Utah), upon the floor of the Senate. They are approximately correct.

The greater part of this loss has been sustained by the farmers of this country in land values, agricultural products and live stock values, although a part of this loss has fallen upon the very industry and business and upon every form of property values.

All the arguments that can or will be made by Republican speakers can not wipe out or materially change these figures. They are a concrete illustration within the understanding of everybody of what it means in the way of prosperity to have a Democratic administration and what in the day of disaster to have a reactionary Republican administration, and her executive ability it marked.

MRS. ST. CLAIR-MOSS A CANDIDATE

Mrs. Woodson Moss, of Columbia, Mo., has announced as a candidate for Congress from her district and the news is exceedingly interesting to Paris friends. Mrs. Moss was well known in Lexington and Paris as Mrs. Luella Wilcox St. Clair, president of Hamilton College for about six years, and one of the most admired women in Kentucky. She is quite scholarly, graceful and witty as a public speaker, able as a writer and her executive ability it marked. Before coming to Lexington she was president of Christian College at Columbus, Mo., and she left Hamilton College on account of urgent calls from Columbia as she had come away from her office there only on leave. During the commencement exercises at Christian College on May 31 a telegram was read from Mrs. St. Clair from the capital of Missouri telling that she had filed for Congress.

RECORDS HEART BEATS

From phonographic records of feeble heart and lung sounds, greatly amplified, doctors soon may be able to diagnose symptoms of diseases without even seeing their patients, says the Popular Science Monthly. Records may be submitted to medical authorities in distant cities or abroad for expert study and examination.

A Minnesota judge says women are a disappointment as jurors. He probably hasn't found one who has an opinion that can not be changed.

A bill admitting women to the bar has been adopted in the Belgian Senate.

HENRY SPENCER, Well-known and respected citizen of Watertown, N. K., who reports he has gained 15 pounds since he began taking Taniac and always tells his friends how this medicine restored his health.

"My friends often say: 'Never saw you looking better; what are you doing for yourself?' and I always tell them: 'Well, I am taking Taniac now,'" declared Henry Spencer, 415 East street, Watertown, a well-known and highly respected citizen.

"For more than a year," he said, "I seemed to be run down all over. From 160 pounds I fell off to 135, lost my appetite and my stomach gave me no end of trouble. The little I ate caused me to bloat with gas and I was subject to dull, heavy headaches. I had no energy and it was all I could do to get around the house. I had dizzy spells when everything would blur before my eyes and I had to catch myself to keep from falling.

"Well, now, I have gained 15 pounds, feel better in every way and can work as well as ever, since taking Taniac. I relish what I eat, with a fine appetite, and gas, indigestion, headache and dizziness are completely gone. Yes, sir, I just can't say too much for Taniac."

Taniac is sold by all good druggists. (adv)

LEAVE WORRIES AT OFFICE

"When I leave my office at night," said a man who has made a reputation for dealing successfully with big problems, according to the New Success, "I take no business worries with me, because I want to come back in the morning at the top of my condition, capable of doing the biggest day's work that is possible for me.

"If I were to worry over things at night, if I didn't get recreation and rest, I couldn't do a man's work; I couldn't tackle big propositions.

"No man can take his troubles to bed with him and lie awake thinking of them when he should be getting refreshing sleep to re-enforce him to handle big things the next day. Buoyancy, enthusiasm, mental harmony, are the very essence of efficiency, of creative ability; and worry destroys all of these so I absolutely refuse to worry in any circumstances.

"I won't waste my energy and my creative power lying awake nights worrying over things. I know that I can deal efficiently with them next day, and not till then. Now this is what all men of large vision and practical commonsense do. They don't drag harassing problems home with them after the day's work is done; they lock them in their place of business. Over the door of their home is written in mental characters:

"No worrying here. This is my refreshing station, my repair shop. This is where I equip myself for the next day's run. This is where I renew my spirit, my enthusiasm, my zest. Here is where I brace up my sagging ambition and get ready for to-morrow's run."

CHAUTAUQUA ANNOUNCEMENT

Two top-notch dramatic comedies, "Turn To The Right" and "Friendly Enemies;" Lieurance's Little Symphony Orchestra; former Governor Brough, of Arkansas, and other headline lecturers; Irene Stolofsky, eminent violinist; unique children's programs; Jess Pugh, noted fun specialist—these are among the eighteen notable attractions which will appear here at the big seven day "Redpath Chautauqua" which opens on Wednesday, July 12, and continues through July 19.

The Collegian Male Quartet, four exceptional singers who are also splendidly accomplished as a brass quartet, will launch the week's program with a popular concert on the first afternoon. Following a prelude by this company at night, Hon. Charles H. Brough, scholar, educator, and for two terms governor of Arkansas, will deliver an eloquent and illuminating lecture, "America's Leadership of the World."

A grand concert given on the second afternoon by the Montague Light Opera Singers will feature many light opera melodies presented in costume with a wealth of realistic dramatic detail. At night, following a concert by the Montagues, Dr. Huber W. Hurt, author, scholar and orator, will speak on "The New Industrial Day," powerfully setting forth practical principles of individual and collective living.

On the third afternoon, Irene Stolofsky, brilliant concert violinist, and assisting artists will appear in an artists' recital.

The third night will be Artists' Night. Miss Stolofsky and company will be heard in concert, following which Sidney Landon, interpreter, humorist and scholar will present his famous impersonations of Twain, Kipling, Longfellow and other literary masters, with readings from their works.

The Cramer-Kurz Trio, three gifted entertainers—a soprano, a character interpreter and a piano accompanist—will present a delightful program on the fourth afternoon preceding the unique lecture-demonstration, "Well-Dressed On a Moderate Income," by Evelyn Hansen, noted authority on dress. During the past year Miss Hansen has lectured on this subject to more than 95,000 people under the auspices of the Art Institute of Chicago. She will be assisted on the platform by young women models.

On the fourth night comes the irresistible comedy success, "Turn to the Right," with a wealth of amusing and heart-grIPPING episodes. "Turn to the Right" will be presented by a notable New York cast, organized by the New York Producing Department of the Redpath Bureau.

On the fifth day Lieurance's Little Symphony Orchestra of four violins, two cellos and a piano, features an abundance of classical and popular favorites for strings in a grand concert in the afternoon and a prelude at night. The Little Symphony was organized by Turlow Lieurance, famous composer of "By the Waters of Minnetonka," and on tour will be under the personal direction of Harold Lewis, pianist-composer.

A question of great importance will be presented by Chester M. Sanford, vocational expert, who lectures on the sixth afternoon on "Failures of the Misfits." Mr. Sanford's address points out the vital need of choosing the proper vocation. A round table follows the lecture.

"Friendly Enemies," delightful comedy drama, on the sixth night, runs over with laughs interspersed with moments of gripping pathos.

It will be presented by an exceptional New York cast.

Vierra's Hawaiians, singers and players, on the last afternoon, clad in their native costumes and playing the musical instruments peculiar to their native land, will give a popular concert, and at night will give an equally popular prelude to a humorous program presented by Jess Pugh, fun specialist extraordinary. This last night's program will be a fitting finale to a great Chautauqua week.

Four unique children's entertainments will be given in addition to the regular programs for adults, each of the four entertainments for the youngsters being given on a different day. Mary Mason with her Marionettes will give one entertainment and Duval Brothers, well-known magicians, another. The other entertainments are "Characters from the Story Books" presented by Kathleen Scott and Catherine Denny and a popular concert by the Cramer-Kurz Trio. The children's programs will be given either in the morning or in the afternoon.

SAME LAW COVERS ALL

If one citizen of a town is required to pay for building a street in front of his property, all must be required to do so, the Court of Appeals Tuesday held in affirming a decision of the Monroe Circuit Court in the case of the City of Tompkinsville against Joe S. Miller. Miller had sued to enjoin the city from collecting \$90.75 of a bill for \$1,057.60 incurred by the city in fixing a street. It was proved that in some instances the city had not made assessments where it did the work.

LODGE, THE UNCONSCIOUS HUMORIST

Senator Henry Cabot Lodge is one of the best unconscious humorists in the country. After asserting that the methods employed by the Democrats in exposing the infamies of the Fordney-McCumber Tariff bill for postponing the arrival of a period of stability, he said:

"Business could not fully recover while uncertainty existed as to the tariff rates."

The Republicans came into control of both branches of Congress following the general elections of 1918. They have been in full control of all branches of the Government since the Fourth of March, 1921. It was not until a few months ago that they even attempted to revise the tariff, and their present efforts are exciting the ridicule, contempt and denunciation of even their own party press.

In Crete writing was practiced 3,000 years before Christ.

TREASURY SAVINGS CERTIFICATES VERY POPULAR

"The rapidly increasing popularity of the new government savings system in Paris is evidenced by the sale of \$6,200 worth of Treasury Savings Certificates at the local postoffice during the month of May," stated Postmaster Payne to-day.

Postmaster Payne declared that Treasury Savings Certificates are the soundest investment conceivable, due to the fact that all risk is eliminated and they constantly increase in value. If held for five years they increase 25 per cent. over the cost price, or 5 per cent. per year, and both principal and interest are free from all local and State taxes.

These certificates can be purchased at the local post office in denominations of \$1,000, \$100 and \$25 at cost prices of \$800, \$80 and \$20 each, respectively, and it is hoped that more people of this community will familiarize themselves with this government savings plan in order to make their dollars grow safely at the rate of 5 per cent. per year.

LIGHTNING BOLT FIRES CIVIL WAR MUSKET

"The unloaded gun," an old army musket that has stood by the great stone chimney at the home of Wm. Donaldson, near Maysville, since the Civil War, was discharged by a bolt of lightning.

The bullet went through the ceiling and Mr. Donaldson and two neighbors, who were in the room seeking shelter from the storm, were knocked down unconscious.

The lightning struck the chimney and tore it to pieces, entering the house through the flue.

RELIGIOUS

A Resume of Events in Religious Circles For Present and Future

—Rev. W. G. Nutter, pastor of the Millersburg Christian church, will preach at the Jacktown church Sunday afternoon at three o'clock.

—St. Peter's Episcopal Church, Rev. Walter S. Cain, rector; Trinity Sunday; Sunday School at 9:35 a. m.; Holy Communion and services at 10:45 a. m. A cordial invitation is extended to all to worship with us.

—Ground was broken yesterday afternoon for the new Second Presbyterian church, to be erected at Ransom avenue and East Main street, in Lexington. Special exercises were held under the direction of Rev. Dr. Benjamin J. Bush, pastor of the church. The excavation work will begin to-day. The ceremony of breaking the ground was witnessed by a large delegation of church people and business men.

—Rev. Dr. Richard Wilkerson, who gained fame in Paris for a remarkably eloquent address and his earnest work in the Liberty Bonds campaign in Paris during the world war, while pastor of the Church of the Good Shepherd, at Lexington, was found not guilty of violating a general canon of the church, while rector of St. John's Church, at Troy, Alabama. Dr. Wilkerson was charged specifically with allowing a Jewish rabbi to speak in the Parish House of St. John's Church at a watch night service last New Year's Eve. The court, hearing the case, was composed of three Alabama ministers.

—Cradle Roll Day will be observed at the Methodist church next Sunday, when all the children who belong to the Cradle Roll are invited to be present at 10:45 a. m. for the Cradle Roll march. Promotion certificates will be given to all who have reached four years of age and they will be enrolled in the main school. Infant baptism will be administered at the opening of the service and the pastor, Rev. C. H. Greer, will preach on "The Christian Home America's Fundamental Institution."

Sunday School will meet at 9:30 a. m.; the Epworth League will meet at 4:45 p. m., and at 7:30 the pastor will preach on "The Closed Door." A most hearty welcome to all at every service.

—Services will be held at the Christian church Sunday at the regular hours, 10:45 a. m. and 7:30 p. m. Rev. W. E. Ellis will occupy the pulpit at both services. In the morning the subject will be "The Victory of Faith," and in the evening, "Infidel Faith vs. Christian Faith." There will be special music at both services.

The Christian Endeavor Society will meet in the church parlors at 6:20 p. m. The topic will be, "Team Work Helps and Hindrances." D. Y. L. Farley will lead.

The Junior Choir will meet Sunday afternoon at three o'clock, for practice under Mrs. Dryden's direction.

The Bible School will meet promptly at 9:30. A cordial invitation is extended to all.

The Woman's Missionary Society will meet in the church parlors next Tuesday, June 13, at ten o'clock, for an all-day service and lunch. The regular business meeting will be held in the afternoon at 2:30 o'clock.

—Rev. Ward Russell, of Little Rock, who received the degree of Bachelor of Arts from the College of the Bible at Transylvania College, Lexington, and had previously held the degrees of Master of Arts and Bachelor of Arts from Transylvania, was appointed instructor in the College of the Bible, and will have charge of the English Bible course. Rev. Russell will also continue in charge of the church at Little Rock. Dr. Vernon Stauffer, dean of the Southern California School of Christian Religion, was elected to the chair of the New Testament in College of the Bible at the annual meeting of the board of trustees Tuesday. His work will be partly in the field covered by Dr. A. W. Fortune, who resigned as dean of the College, January 1, and was succeeded by Dr. W. C. Bower.

BLUE GRASS SEED HARVEST ALMOST FINISHED

The harvesting of the large crop of blue grass seed in Bourbon county is practically at an end, some small fields remaining to be stripped. Rain yesterday interfered with the work to some extent.

Some sales have been made on a basis of \$1.00 a bushel, while the weedy seed has ranged from thirty-five to seventy cents a bushel. It is said that but little of the crop has been sold, farmers preferring to hold it for August delivery, provided the price at that time is right.

ROBERT LAVIN TO COACH HENDERSON TEAM

Robert Lavin, son of Mr. and Mrs. M. J. Lavin, of Paris, has been chosen by the Henderson, Ky., City School Board of Education to coach the Barrett High School football and basketball teams of that city. Mr. Lavin will also teach several subjects in the High School. His salary was fixed at \$1,500.

Mr. Lavin is a member of the graduating class of 1922 of Kentucky University, where he starred in football and basketball work for several terms. He was given honorable mention last year by Walter Champ in naming his All-American football team. He accompanied the All-Kentucky basketball team in their triumphal tour through the South and was rated as one of the best football and basketball players in the South. He has made an enviable record at the University of Kentucky, also on the teams of that institution.

Y. M. C. A. NOTES

The "Y" Membership Committee is planning a big membership contest between the men and boys on one team and the women and girls on the other.

Each new member will count 10 points. Prizes for the ones scoring the highest number of points in each division are being offered by the Membership Committee. A bathing suit or tennis racket or the equivalent (\$5.00) will be presented the winners.

The winning team will enjoy refreshments, while the losers will get hungry.

All Y members of both the women's and men's divisions are asked to meet at the Y building on Friday evening, June 9, 7:30.

The contest will begin Friday, June 9, and last for one week. Mr. J. T. Tucker is chairman of the committee putting on the contest.

Special rates for the Y swimming and tennis privileges are being offered for the period of the contest.

HEALTH BOARD NOTICE; WEEDS MUST BE CUT

Weeds are a nuisance and detrimental to health. The health board so declares, and orders them cut within the next ten days. The board also requests any person or persons who are acquainted with individuals who are evading the orders of the health board in any instance to notify the health officer confidentially.

FINE SULPHUR WELL DRILLED IN.

A fine vein of pure sulphur water was struck by drillers on the E. F. Prichard farm, near Paris, Tuesday. The drill penetrated to a depth of 102 feet when the strong flow of water was encountered.

The water now stands twenty-two feet in the well. Mr. Prichard says it is the strongest and purest flavored sulphur water he has ever tasted. The well was drilled in by W. K. Kearney, expert, of Versailles.

TWO IN ACCIDENTS

Mrs. Charles Sauer, of Seventh street, received a message from Middletown, Ohio, telling of an accident to her brother, Alvin Thomas, formerly of Paris. While working on the new Methodist church, in Middletown, the ladder on which Thomas was working fell, throwing him to the pavement, thirty-five feet below. His ankle was broken and his foot badly injured. He was removed to his home and given medical attention.

Mrs. John McGinley received a message from Cincinnati, telling of an accident to Mrs. Henry McGinley, formerly of Paris. While descending a stairway Mrs. McGinley fell, breaking the bones of one foot. She was taken to the hospital on Price Hill, Cincinnati.

A writer speaks of Russia's past bellum troubles. Russia's troubles, however, are not so much post-bellum as cerebellum.

PARVIN WILL PROBATED

In the County Court the last will and testament of the late Henry C. Parvin, who died some week ago at his home near Clintonville, was admitted to probate before County Judge George Batterton. By the terms of the document the deceased leaves all his property, real, personal and mixed, to his widow, Mrs. Bettie Parvin, and named her executrix without bond.

Mrs. Parvin waived her right to qualify under the will as executrix and recommended that the Court appoint Frank Buchanan in her place. Mr. Buchanan accepted the trust and qualified as administrator with will annexed, executing bond in the sum of \$2,000. Brutis J. Clay, Luther K. Rice and Kelley Haley were appointed to appraise the estate.

DOWN WITH THE SPEEDER

With the summer months again upon us and automobiles on the increase the spotlight of pitiless publicity should be turned upon the speed maniac, the most dangerous of all irresponsible animals—and Paris is full of them, unfortunately.

Then again fortunately, the vigilance of police and county officials is having a tendency toward reducing the number of these pests. Heavy fines have tended to check them, and more are needed. They have absolutely no regard for the safety of lives or pedestrians, and take some desperate chances on making short and quick turns around corners. Not half of them sound their horns on approaching intersecting streets, and the other half only make a half-audible kind of sound.

Even one of the species is too many to be left at large. Not since the days of Indian butchery has there been such a menace to public safety and the lives of the people. We have seen some very narrow escapes at street corners, due principally to the carelessness or indifference of automobile drivers.

Time and superior force eliminated the Indian as a menace. The speeder's turn comes next. Action should be swift and certain, and with no greater mercy than the speeder shows to his helpless victims.

INSECTS USE RADIO

Wireless Expert Discovers Electric Power in Bugs.

Cockroach Has Wave Length of Between One-Half Inch and One Inch—Send Messages to Each Other—Accidentally Discovered.

Harrisburg, Pa.—The troublesome cockroach is a radio "fan" and communicates by wireless with his brothers and sisters.

Howard Zimmerman of Harrisburg, sergeant major of the Fifty-third infantry brigade headquarters company, Pennsylvania National Guard, believes and seeks to prove it through experiments, the results of which were made public here.

The experiments, Sergeant Zimmerman said, have been under way here for a year as the results of an investigation begun in a bug-infested barracks in Luxemburg, under the direction of Captain Armstrong of the Fifth division signal corps with which Sergeant Zimmerman was serving shortly after the armistice.

"At that time we were having night school and were working on the shortest possible wave length, getting as low as one-fourth of a meter," the sergeant explained. "Radio sets were located three feet apart on a glass-topped table."

"One night everything was working perfectly when suddenly our tubes began to act queerly. By the flickering light of the candle we finally located 'Mr. Cockroach' sitting in the space between the receiving and transmitting apparatus. We removed him and, to our surprise, the apparatus became normal. This led us to believe he was capable of making electric power."

The sergeant declared one insect radio to another, and this belief, he said, is supported by his experiments.

"I have found in my experimental work," he asserted, "that a cockroach has a wave length of between one-half inch and one inch, with a very low frequency."

The tumble bug and moth are also endowed with radio power, he added, while beetles show only slight evidence of possessing wireless habits.

UNIQUE MEMORIAL

In an upper window of one of the well-to-do houses of Cologne, Germany, is an astonishing memorial, a pair of horses' heads, facing the street.

They were carved hundreds of years ago and were placed there to commemorate one of the quaintest events in all history, by an ancient noble of the city.

The story runs that his wife died, and while he was mourning at the deathbed, his stable man ran to him and told him that his wife's horses had disappeared. When he went down to their stalls he saw that they were gone, but when he turned back to the house he saw them emerging from the death chamber and concluded that they were bringing his wife's soul to heaven. The horses were never found again, and this strange memorial was set up here in their honor.

PULLS TOOTH TO TOOT FLUTE

Schoolboy Sacrifices Crooked Incisor to Further Life's Ambition to Become a Musician.

Philadelphia.—A real martyr to music has been brought to light by Miss Winnetta L. Stacks, superintendent of the Methodist Episcopal Deaconess home here. Miss Stacks in describing her efforts to initiate music classes in settlement work, told of one small boy who confided that his life's ambition was to play the flute. The teacher struggled in vain to teach, but his lips would not pucker right.

"Joe, I guess you will never learn to blow a flute because of the way that front tooth has grown. It is in the way," she said finally.

A few days later the lad's mother returned home to find her son's face bloody, but shining with triumph. He had borrowed pliers and had pulled the tooth.

"And at the first recital of the students of the class," Miss Stacks concluded, "he blew notes on the flute."

NEWBORN DANGER IN YELLOW FEVER

May Cross Ocean in Event of Quick Transit Between American and African Tropics.

GORGAS' WARNING RECALLED

In Former Days Time of Transit Across Atlantic Was Long Enough to Allow All Cases of Fever on Board to Kill or Cure.

Panama.—The two Portuguese aviators flying across the Atlantic from Africa to South America brings to mind a prophetic warning of the late General Gorgas. This was to the effect that when quick transportation between tropical Africa and tropical America should develop, as it eventually would, it would greatly increase the danger of the spread of yellow fever to the Eastern Hemisphere as long as the disease remained in South America, especially in Brazil.

Days of the Slave Trade.

The reason why yellow fever did not spread from America to Africa in the days of the slave trade, as malaria did spread from Africa to America then, illustrates beautifully an important difference between the two great tropical plagues, as well as gives point and pertinence to General Gorgas' warning. Yellow fever kills or cures in a very short time; malaria may linger in the system for a very long time. In former days the time of transit across the Atlantic was long enough to allow all cases of yellow fever on board a ship to die or to recover before the voyage ended. Recovery conferred immunity on the fortunate, and if a mosquito should bite them after they reached Africa they found no germs in them to transmit to others. So it required a very quick transit to get the infection across. It is not yet positively certain that yellow fever ever did cross the ocean. General Gorgas was on his way to the west coast of Africa to settle this question definitely when he died in London.

An Important Difference.

But malaria, which seems to have originated in Africa, does not confer immunity upon those who recover from an attack. The germs may survive in the system of the sufferer for months, or even for years, in a more or less dormant state, even if acute attacks do not again develop, and these germs may infect the anopheles or malaria-carrying mosquitoes, and so enable them to infect others. In this way the African slaves brought malaria to America with them, but the slave traders did not carry back yellow fever with them to Africa—at least it is not definitely known that they did—and the long time of transit was unfavorable to any considerable transportation of the infection. It is certain that Africa has not suffered from the imported American plague of yellow fever as much as America has from the malaria imported from Africa.

Airplane May Change This.

But the airplane may easily change all this. If the Atlantic is crossed in two or three days any member of the crew of an airplane having an infection of yellow fever may easily carry the disease to where the mosquitoes are waiting to do their part on both sides of the Atlantic. Yellow fever does not reveal itself immediately after a man is bitten by an infected mosquito.

The only safety would lie in a strict quarantine at the port of arrival in Africa or Europe, the crew and passengers all being detained under watch until the period of incubation has passed. The other remedy is to clean up South America of yellow fever, as General Gorgas so strongly urged.

USE CHAPELS ON WHEELS

Methodists of Northwest Plan Extensive Campaign in Country Districts This Summer.

Seattle, Wash.—A number of district conferences of Northwest Methodist Episcopal churches advocate a chapel-on-wheels campaign this summer to cover a vast area of territory where the population is scattered. There are hundreds of hamlets, agricultural communities and isolated places where the Gospel is not now heard.

The mounted chapels are to be constructed on trucks equipped with living quarters for the parson, a platform in the rear from which services may be conducted. In the equipment will be included graphophone with Gospel records, portable organ, books of songs and Bibles for collective reading.

The first of these wheeled churches will leave here early in May for the lumber camps above Snoqualmie. The pastor in charge of the first chapel will be a student from the College of Puget Sound (Tacoma) Theological school.

Wooden Leg as Flask.

Spartanburg, S. C.—The storied "uses of adversity" proved anything but sweet the other day for Alex Balenger, a one-legged Spartanburg Negro. When a faint and muffled "splash, splash" was heard to accompany him as he hobbled down Main street a policeman took him in. At the station a cache in his wooden leg was found to contain a pint of liquor. The judge imposed a fine of \$100 for transporting intoxicants.

A Good Reputation plus a Better Price — \$10.90

THE new low mark of \$10.90 for the 30 x 3 1/2 size "Usco" created something of a sensation. Naturally, the first impulsive remark was on the "wonderful price."

Even more to the point are the comments of today.

People are getting more used to the \$10.90 price—but the "Usco" value is still a cause for wonder.

With thousands of \$10.90 "Usco's" running today, every locality has had a chance to check up on the surprising tire value.

Let all these "Usco" Tires now serving their owners so well remind you of this—

Whatever the price of "Usco," it has got to deliver big value because it has always done so.

NEW INVENTION MAY ENRICH KENTUCKIAN

Multitudinous railroad wrecks due to split switches will become obsolete if the wheel replacer invention by J. B. Compton, of Normal, Ky., and just patented fulfills expectations. The Great Northern Railway has brought a three-eighths interest and the device is being tried out on Minnesota lines. If generally adopted, the invention would suddenly advance the Normal, Ky., lick-keeper to the millionaire class. It is said. The replacer is secured at the butt of a switch and, in the event of a split, does just what its named indicates.

Hail Destroys Millions of Dollars of Tobacco

May Get Yours Any Day

The loss of tobacco by hail in this and other tobacco states within the last five years has run up into millions of dollars with only a small part covered by insurance. Yet, the amount of insurance received by growers who had the foresight thus to protect themselves against such loss, was enormous and should make every grower not only feel the necessity of insuring his tobacco crop against hail storms loss but to do that very thing and do it at once.

What Dr. Halley Says: Dr. Samuel H. Halley, of the Burley Tobacco Growers' Cooperative Association, upon congratulating an insurance company on lowering its rates on tobacco hail insurance, said: "Within the period that I have had hail insurance I have had four severe losses. The money I received exceeded considerably what I paid in, to say nothing of my peace of mind that I was fully protected in case of a storm. I have always advocated carrying hail insurance on tobacco without which every grower takes a chance to lose all. With it he can, in safety, go into the business of producing a crop which requires, as does tobacco, so much labor, time and money."

Now that the Burley Growers have gone into an organization to handle their business in a modern economic business-like way, I see no reason why all growers can not take out insurance on the reduced rates the companies are now quoting. Look up the insurance agent in your section now, and let him protect you against the loss of your tobacco. Policies effective July 10th, noon.

COULD HARDLY STAND AT TIMES

Hips, Back and Legs Would Have That Tired Ache

Everett, Washington. — "For several years I have had trouble with the lowest part of my back and my hips and my legs would ache with that tired ache. I could hardly stand on my feet at times. I was always able to do my work although I did not feel good. I saw Lydia E. Pinkham's Vegetable Compound advertised and having heard several praise it I decided to try it. I feel first-rate at the present time. It has done wonders for me and I keep it in the house right along. I always recommend it to others who are sick and ailing." — Mrs. J. M. SIBBERT, 4032 High St., Everett, Washington.

To do any kind of work, or to play for that matter, is next to impossible if you are suffering from some form of female trouble. It may cause your back or your legs to ache, it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good.

Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of the trouble and then these annoying pains, aches and "no good" feelings disappear.

It has done this for many, many women; why not give it a fair trial—now.

BIBLE IN SCHOOL TO HAVE PART IN ELECTION

An active part in the primary election in State of Washington is to be taken by the Bible Fellowship of Washington, an organization of representatives of Protestant churches, in an announced effort to compel both the Democratic and Republican parties to take affirmative or negative stand on the question of admitting the Bible to the public schools. R. L. Edmison, president of the organization, declared recently.

As set forth in its printed matter, the object of the Bible fellowship is "to remove legal barriers to reading the Bible in the public schools of the State."

BEWARE THE HEADLINE WRITER

Newspaper headlines have come in recently for a considerable share of blame for the present conditions of unrest. The point made is that great flaring type spread over eight columns of the front page induce to unsettlement; that readers get the "jumps" from taking them at face value; that no man can think normally and rationally about the contents of the article he reads when he starts it under the influence of a headline writer, who has striven to jar him into an excited frame of mind.

The war was responsible, of course, for the domination of the news columns by the headlines. It was so big that only big type seemed proper for its display, and, having once struck his stride, winning a free and unhampered field, it is pretty difficult to persuade the headline writer to come off his perch. In consequence he is still with us, feeding us day by day very highly seasoned stuff, everything a crisis, making it somewhat difficult to sober down. The steel strikes gives him another opportunity, of which he will avail himself to the limit centering the attention of the world on a struggle—as if it were a prizefight—that might be more easily disposed of if it were not fought out in the headlines, millions looking on and both sides keenly aware of the "gallery."

In the circumstances it may not be amiss to warn readers against the ineradicable propensity of the headline to feature "hot stuff," something with a kick in it. Don't conclude that the world is going to the dogs because he yells at you so loudly. Take his verbal assault calmly. Often his bark is worse than his bite.

A-BIT OF ADVICE

First — Don't Delay; Second — Don't Experiment.

If you suffer from backache; headaches or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Paris residents' desire more convincing proof of their effectiveness than the statement of a Paris citizen who has used them and willingly testifies to their worth?

Mrs. J. N. Reynolds, 255 Winchester street, Paris, says: "I have found Doan's Kidney Pills to do me more good than any remedy I have ever used and I recommend them highly. I suffered from rheumatic pains and kidney trouble. I could always tell when the weather was going to change as my limbs became painful. I got dizzy, especially when I first got up in the morning and my kidney were not acting regularly. I was not long in getting relief after I began using Doan's Kidney Pills and felt better in every way after taking them."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Reynolds had. Foster-Mil-United States.

THE COUNTRY IS SOUND

The result of the economic questionnaire sent to 8,000 business and agricultural interests and newspapers throughout the 27 States composing the Mississippi Valley Territory, by the Mississippi Valley Association shows that the combined sentiment of 3,000 returned questionnaires is expressive of the opinion that the individual and financial condition of the business in the United States is basically sound; that the present depression in business is due to the universal demand of the public for lower living costs; that no additional system of credits is needed; that the usual law of supply and demand has little bearing on the present situation; that the press of the country has given too much publicity to depressing rumors with regard to business; and urges a truthful statement of facts concerning the business situation as the right sort of propaganda to be disseminated to the public. The composite thought and suggestions as expressed in the questionnaire are to form a basis for the adoption by the Mississippi Valley Association of a program of constructive thought and action tending to relieve the apparent business stagnation.

DREAD PELLAGRA FOUND CURABLE

Proper Quantities of Animal Protein in Diet Both Cure and Preventive.

TAKES HEAVY TOLL OF LIFE

Scientists of United States Public Health Service Give Results of Many Years' Study of Disease —Need Eggs and Meat.

Pellagra, a mysterious disease which has caused widespread illness and taken a heavy toll of life in the United States and many countries of Europe, is caused primarily by lack of animal protein in the diet, and is both preventable and curable by proper quantities of animal protein being included in the diet. It is announced by the United States public health service. Doctors Goldberger and Tanner, surgeon and past assistant surgeon, respectively, reporting the results of many years' study of the disease, assert that forty grams per day of beef or milk proteins in the diet will, for practically all normal individuals, prevent the contraction of pellagra. The necessary forty grams of animal protein are contained in about a half pound of beef, or three pints of milk.

Must Get Enough.

"Thus it does not suffice," says the report, "merely to include milk or meat in a diet to prevent pellagra. The quantity of either of these or of other like foods, alone or as supplements, must be considerable to be effective. This may help to explain some of the instances of pellagra in individuals, (including some of those very rare ones in nursing infants), who are alleged to have had a 'good' diet. They did not consume enough for their particular needs."

The following selected quotations set forth the logic of the situation as expressed by Goldberger and Tanner:

"There is now at hand a considerable and convincing body of evidence in support of the view that diet is the primary controlling factor in the prevention and causation of pellagra."

"To begin with, account must be taken of the fact that no unequivocal evidence of the transmissibility of the disease has yet been adduced."

"Of outstanding significance are, on the one hand, the demonstration that pellagra may be completely prevented by means of a suitable diet, without intervention of any other known factor, hygienic or sanitary, and, on the other, the absence of any sound evidence that the disease is preventable by any other means."

Referring to experimental work on a group of convicts, the report states, "At least 6 of 11 convicts who volunteered for the experiment and who subsisted on a diet consisting principally of the cereals, wheat, maize, and rice, with pork fat and some fresh vegetables (sweet potatoes, turnips, cabbage, greens), developed evidence which experienced observers recognized as that of pellagra; whereas, of a large number of controls, none presented any evidence justifying even a suspicion of the disease."

The Protein Factor.

"Thus, by a process of exclusion we are led to conclude that of the known dietary essentials the protein factor alone was concerned in our failure to prevent the development of the cases herein cited. And if our interpretations are, as we believe, sound, (and if all dietary factors essential in human nutrition are known) the further conclusion may properly be drawn, namely, that the dominating role of diet in the prevention and causation of pellagra must be referred primarily to the character of the protein supply."

"Some of the perplexity and confusion will also be prevented if it is not forgotten that the biological quality of a protein and its adequacy in relation to pellagra may, and doubtless frequently do, depend on the plane of intake. In our experience, a supplement of not over 40 grams of milk or beef proteins will, for practically all normal individuals, adequately supplement a pellagra-producing mixture of proteins from maize, wheat, rice, and cowpeas, but 20 grams (representing somewhat over a pint of milk or a quarter of a pound of round steak) may not do so."

Don't Worry, Sweetheart; I'll Escape in Two Years

Washington. — "Don't worry, sweetheart, I'll escape inside of two years," Joseph Lauzon, charged with 200 burglaries here in the last eighteen months, replied to the warm embrace of the woman who had gone into his cell to bid him good-by the other day. Arrested with him, but later released, Miss Virginia Betty Carroll told Lauzon: "If they give you fifty years, I'll still be waiting for you when you're free."

BOURBON FARM CONDITIONS

Between the stripping of blue grass seed crop, setting out tobacco and gathering a rich crop of ripe strawberries, the farmers of Bourbon county finished one of the busiest weeks in their history. Very few of them have been to Paris except on short errands during the entire week. Every available laborer in the county has been given employment, and in some instances labor has been so scarce that men have been brought here from surrounding counties when the supply exceeded the demand.

Showers of the past week have been of great benefit in giving the tobacco plants a good start, but have delayed slightly the work of stripping blue grass seed, but have delayed slightly the work of stripping grass seed. Under the benign influences of sunshine and rain all growing crops have taken on new life and are growing "an inch an hour."

A spirit of optimism continues to prevail among the farmers and merchants alike, and all are firmly convinced that the present year will bring forth better times than we have had in this county for several years.

ALVERSON TO RUN AN INDEPENDENT PAPER

Jesse M. Alverson, of Paris, who recently bought the Harlan Enterprise from J. S. Roland, and who has conducted newspapers in Stanford, Georgetown, Lawrenceburg and Flemingsburg, and who, until a few years ago, was active in State politics, in his salutatory statement says:

"We shall aim to run a strictly live, independent newspaper in the fullest sense of the meaning of these words, conceding at the outset to the dominant party in Harlan to rule, asking in return only faithful performance by upright, efficient public officials, which we have every reason to believe exists herein; assuring to each and his party nothing but the fairest of treatment at our hands at all times, and under all circumstances; with our columns always open to them; our every effort being to make a better and greater Harlan, morally, civically and industrially."

THIRTY COUNTY FAIRS THIS YEAR

Thirty county fairs will be held this summer in different counties of the State, according to Commissioner of Agriculture W. C. Hanna. Jefferson and Rockcastle are the only counties that will have two fairs each during the summer. The Kentucky State Fair will be from September 11 to 16 and prior to that the Jefferson County Fair Company will hold its annual fair at Beuchel from August 8 to 11. In Rockcastle county the Broadhead Fair will be from August 16 to 18 and the Mt. Vernon Fair from August 9 to 11.

The fairs will start some time in July and will conclude about the middle of September.

Counties which will hold fairs this year are Anderson, Barren, Boone, Boyle, Bullitt, Campbell, Casey, Christian, Daviess, Fayette, Fleming, Henderson, Jackson, Jefferson, Kenton, Knox, LaRue, Laurel, Madison, Mason, Mercer, Montgomery, Pulaski, Rockcastle, Shelby, Spencer, Union, Warren and Washington.

GOREY

—Following a long illness due to a complication of diseases, Miss Cassie Gorey, aged sixty-one, formerly of Paris, died at eight o'clock yesterday morning at the home of her sister, Mrs. A. C. Collins, in Covington.

Miss Gorey was a daughter of the late Christopher and Johanna Gorey, pioneer residents of Paris, who preceded her to the grave several years ago. For some months she had been making her home with her sister, Mrs. Collins.

She is survived by one sister, Mrs. A. C. Collins, of Covington; and five brothers, Rev. James L. Gorey, of Newport, John A. Gorey, of Paris, Robert C. Gorey, of Montgomery, Alabama, Andrew J. Gorey, of Covington, and Edward H. Gorey, of Paris.

The funeral will be held at St. Mary's Cathedral, in Covington, at 7:30 o'clock (city time), Saturday morning, with services conducted by her brother, Rev. Father James L. Gorey. The funeral cortege will arrive in Paris on the Louisville & Nashville train from Covington at 10:10 Saturday morning, and proceed direct to the Catholic Cemetery, where the interment will take place on the family lot. The pallbearers will be M. J. Lavin, George Doyle, George McWilliams, Dan Jordan, John McCarthy, John R. Roche.

MATTERN—SHEPHERD

—Miss Coranella Matern, of Frankfort, President Harding's personal secretary, and stenographer, has announced her engagement to Norman B. Shepherd, of Washington, according to a dispatch from Washington to the daily papers. The wedding will take place late in June at the home of Miss Matern's brother, Harry P. Matern, in Cincinnati.

BEDFORD—ROGERS

—The marriage of Miss Henrietta Clay Bedford, daughter of Mr. and Mrs. Matthew Hume Bedford, to Mr. Fielding Grant Rogers, both of Bourbon county, will be solemnized Saturday afternoon, June 17, at five o'clock, at the home of the bride's parents, in this city.

Misses Nancy Loveland and Ella Brown, of Lexington, will be Miss Bedford's bridesmaids. Little Miss Rebecca Payne, Marie Gay Payne and Nell Clay, of Paris, will be ribbon bearers. Mr. Henry Prewitt, of Mt. Sterling, will be the best man, and Mr. Richard Thomas, of Mt. Sterling, will be the groomsman.

Miss Bedford was guest of honor recently at a lovely afternoon bridge with which Miss Frances Clay entertained at her home on the Winchester road near Paris. The house was decorated with peonies and poppies. Miss Clay wore printed crepe de chine and Miss Bedford was gowned in coral tinted Georgetown crepe heavily beaded. The first prize, a dainty sewing basket, was won by Mrs. James Clay Ward, and the guest prize was a hand-painted waste basket. Thirty guests were included in the hospitality.

ADAIR—PLUMMER

—A quiet, but beautifully impressive wedding was solemnized at St. Peter's Episcopal church, in Paris, Wednesday afternoon, when the rector, Rev. Walter S. Cain, pronounced the ceremony uniting in marriage Miss Alice W. Adair, of Paris, and Mr. James W. Plummer, of Cynthiana.

The wedding, in accordance with the expressed wishes of the young people, was a very quiet one, only members of the two families and a few friends being present. The attendants were Mr. Milton Adair, brother of the bride, and Miss Netty Jones, of near Paris.

The bride, a daughter of Mr. and Mrs. Percy Adair, of near Paris, is an accomplished and talented young

SUIT TO TEST THE REGISTRATION LAW

A suit to test the constitutionality of the Smith-Minor general registration law is expected to be started in the Franklin Circuit Court within a few days, it was learned yesterday. The report, which was regarded as authentic, did not state who would be the plaintiff in the suit, nor the exact time when it will be filed.

In order to bring the question into the court for prompt determination, the suit, it was reported, will take the form of an injunction suit to prevent Fred A. Vaughn from distributing the registration books now being printed in Louisville. The books must be distributed to the counties by July 1 in order that they may be in the hands of the registration officials for use on the first Monday and Tuesday in July.

MORVICH AND SNOB II MAY MEET IN RACE

The possibility of a meeting between Morvich, Benjamin Block's unbeaten colt, and Snob II, J. S. Cosden's imported sensation, considered by turf followers the fleetest three-year-olds of the season, loomed up as a result of the announcement by Fred Burlew, Morvich's trainer, that he was pointing the colt for the Carlton stakes at Aqueduct June 17.

Snob's entry in the race, which is limited to three-year-olds, and over a distance of a mile, was by no means certain, but if the winner of the historic Withers stakes is successful in the \$50,000 Belmont next Saturday there is a strong possibility that the rivals will meet for the first time.

Burlew's decision assured Eastern race followers their first glimpse this season of the Kentucky Derby winner before he is sent to Latonia for the \$50,000 "Special" and the Derby.

Matt J. Winn, general manager of the Kentucky Jockey Club, announced during the recent race meeting at Louisville, that he had been advised by owners Block and Cosden that, present conditions holding, both Morvich and Snob II would go to the post in the \$50,000 Special race at Latonia, Saturday, June 24.

TEACHERS' QUALIFICATIONS ARE DEFINED BY COLVIN

In reply to inquiries relative to the qualifications of teachers in accredited high schools, George Colvin, State Superintendent of Public Instruction, issued a circular letter of explanation. "A teacher must hold a certificate which entitles him to teach in a public high school," the letter says. "This certificate must be in full force when the contract is made and must not expire during the school term."

WILL TEST ANTI-TRADING STAMP LAW

The first step in a fight against the anti-trading stamp law came when J. Bacon & Sons, Louisville dealers, filed suit in Circuit Court to enjoin Commonwealth's Attorney J. Matt Chilton from prosecuting any action that may be instituted against the plaintiff for the giving of trading stamps.

Hearing on the motion for a temporary restraining order against the defendant officials will be heard Friday morning by Chancellor Lafon Allen. Lawton and Chilton were served with notice of the suit.

Other large concerns which give trading stamps are expected to file similar suits.
